ABSTRACT

The summary of data on adult basic and secondary level education has been compiled from annual reports (a sample of which is appended) filed with the U.S. Office of Education by each State, the District of Columbia, American Samoa, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands. The report presents statistics on adult basic and secondary level education enrollments, student characteristics (age, sex, race, educational and personal achievements), completions, separations, teachers, training hours for personnel (administrators, teachers, counselors, and paraprofessionals), classroom facilities, inservice training, urban and rural enrollments, and State, Federal, and local funding. The publication includes a summary table covering the period 1969-1973 and 25 detailed tables on fiscal year 1973 programs. (Author/PR)

FOREWORD

This summary of data on adult basic and secondary level education has been compiled from annual reports filed with the U.S. Office of Education (OE) by each State, the District of Columbia, and participating outlying areas. It is the sixth in a series of annual reports based upon the programs sponsored by Public Law 91-230, as amended.

Each report in the series presents statistics on adult basic and secondary level education enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training. This publication includes a summary table covering fiscal years 1969 through 1973 and 25 detail tables on fiscal year 1973 programs (from July 1, 1972, through June 30, 1973).

Differing State laws on the collection of data prevented some States from reporting specific items; each table so affected shows the total enrollment, a nonclassified total, and a total of those enrollees whom the States could classify by specific category.

This publication was prepared by the Adult and Vocational Education Surveys Branch of the National Center for Education Statistics with the cooperation of the Division of Adult Education (DAE) in OE's Bureau of Occupational and Adult Education. Key to the development of this publication was the assistance of Paul V. Delker, Division Director of DAE; Morris L. Brown, Chief, Program Development Branch; and Virginia Re, Education Program Officer.

26.--Expenditures of Federal, State, and local funds for adult basic education programs, by region and State or other area: Aggregate United States, fiscal 1973 70

INTRODUCTION

The adult basic education program administered by the U.S. Office of Education was established under the Adult Education Act of 1966. This program offers to persons 16 years[1] of age and older the opportunity to overcome English-language difficulties and attain reading, writing, and computational skills through the 12th-grade level of competence. The opportunity to acquire a high school diploma is also available under this program.

Adult basic education programs are developed and operated by each of the 50 States, the District of Columbia, and 5 outlying areas,[2] and are funded, in part, by grants from the Office of Education. This report is divided into two sections: (1) 5 years of summary statistics; (2) more detailed fiscal year 1973 statistics. The 5-year summary provides some historical perspective.

To participate in the program, each State or other area except the Trust Territory of the Pacific Islands must provide at least 10 percent of program costs and retain total responsibility for planning, supervisory services, teacher training, curriculum development, evaluation, and all essential services for enrollees through the 12th grade. In fiscal year 1973, each State, the District of Columbia, and five outlying areas conducted adult basic and secondary level education programs. As a convention, together the United States and outlying areas are termed "aggregate United States."

The Office of Education also awards grants to schools, colleges, universities, and public and private nonprofit organizations for special projects and teacher-training projects. The act also authorizes direct contracts with institutions and organizations to develop new teacher-training techniques.

Most of the data in this report were compiled from the annual program report (see appendix) submitted by each State or other area. Data are presented for the aggregate United States, the administrative regions utilized by the Office of Education, and each State and other area. While attempts were made to compare fiscal year 1973 data with those of previous years, revisions in the report form limited the comparisons. Specifically, age, race, and sex are reported on a three-way matrix,

---

[1] On June 30, 1969, the minimum age limitation was reduced from 18 to 16 years by the Vocational Education Amendments of 1968, and was included in the collection instrument for the first time for fiscal year 1971.

[2] American Samoa, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands.

with the youngest age group 16-24 in 1972 rather than 18-24 as before. This age-group change complies with amended legislation. Also changed were race or ethnic groupings and the definition of grade equivalents to the three instructional levels. Anyone analyzing trends should note these changes.

Although teacher-training and special projects are part of the adult basic education program activities, data were obtained from the approved grant awards, not from the annual report form.

Teacher-Training Projects

Fiscal year 1973 funds of $3,000,000 supported inservice and preservice training opportunities for 23,150 teachers, teacher trainers, counselors, paraprofessionals, and administrators. Fourteen national training grants were awarded. Ten grants were designed to increase the regional staff development capability.

The primary objective of national teacher-training projects was to provide the participants with current techniques and curriculums in teaching adult basic education students. A project was also conducted to develop models of career-related adult education programs in correctional institutions and to improve the competencies of the correctional administrators and teachers and the supervisors of adult education curriculum specialists. Other program priorities for training adult education personnel included a project designed to increase ethnic and cultural awareness among teacher educators and other adult education personnel, a project that developed educational leadership capabilities for native American tribes, and a project concerned with the design and development of systems for the diffusion and adoption of improved practices in the products of State and local adult education programs.

Special Projects

Fifty-five special experimental demonstration projects were awarded in fiscal year 1973 for a total of $6,734,000.

The major purpose of demonstration projects is to assist State agencies to develop more effective adult education programs by demonstrating innovative practices, systems, and materials on a pilot basis. Effective models and products are validated and disseminated to State and local agencies for local utilization as appropriate.

Public and private educational agencies, universities, and model cities agencies conducted special experimental demonstration projects in fiscal year 1973. Program priorities included exemplary projects for educationally disadvantaged adults, projects designed to serve isolated ethnic groups, production of innovative curriculums and instructional materials, and model cities adult education programs. Special emphasis was given to projects

designed (1) to develop strategies for the dissemination and utilization of adult education products and practices, (2) to develop models of adult secondary programs which demonstrate a comprehensive approach to the broad spectrum of educational needs of the adult population served; (3) to study the adult secondary population to provide an analysis of the current status and trends of secondary adult education and equivalency programs operating in adult schools, learning centers, general educational development (GED) programs, as well as those sponsored by other agencies in the public and private sector; and (4) to develop employer-based adult secondary programs which combine essential education components with achievements gained through work and life experience.

National Advisory Council on Adult Education

The National Advisory Council on Adult Education was established under provisions of Public Law 91-230, as amended, title III of the Adult Education Act, section 310. The Council consists of 15 members, including a chairman and vice chairman, and operates through working committees. The Council advises the Commissioner of Education on general regulations and policy in the administration of the adult education title. The Council also advises OE on policies and procedures governing the approval of State plans, insures the coordination of adult education programs under the title, and examines other programs offering adult education activities and services. The legislative charge to the Council includes a review of the administration and effectiveness of adult education programs sponsored by the title, recommendations, and an annual report to the President. In 1972 the Council developed proposed legislative specifications for a new adult education act, which were incorporated in the Council's second annual report.

SECTION I

FIVE YEARS OF ADULT BASIC EDUCATION, FISCAL YEARS 1969-73

This section reviews adult basic education program statistics based upon data compiled from annual program reports for fiscal years 1969 through 1973. More than 3 million participants over the 5-year period have been provided adult basic and secondary level education services at a cost of approximately $291 million in Federal, State, and local funds as shown in table 1. Almost 74 percent of this total was from Federal funds.

Several States were unable to classify all adult basic education participants in specific categories. Only those classified in specific categories were used in determining the percentages for each of the 5 years covered by this section.

Although enrollment during this 5-year period increased from 484,626 in 1969 to 822,469 in 1973, the yearly changes have been substantially different; for example, 1973 shows an increase of only 2,000 over 1972, whereas 1972 shows an increase of 200,000 over fiscal year 1971.

The numbers of women enrolled in the program have since 1969 made up at least 56 percent of the participants. In 1970 and again in 1973, they represented 57 percent of the participants--an all-time high.

The 18-24 age group as a percent of the total shows an increase each year over the preceding year. The 35-44 and 45-54 age groups experienced gradual declines as a percent of the total enrollment for each year. Some of the increase in the 18-24 age group could be derived from 16- and 17-year-olds being recognized as adults since 1971 and have been included in the 18-24 age group. The 65-and-over age group has been the same percent of the total for each of these 5 years.

SECTION II

ADULT BASIC EDUCATION, FISCAL YEAR 1973

Statistics in this section were obtained from the Adult Basic Education program report for fiscal year 1973. Each State files its program report annually with the U.S. Office of Education (OE) through the appropriate OE regional office.

A total of more than 822,000 participants was reported by all the States and 5 outlying areas during fiscal year 1973. This was an increase of only 2,000 over the previous year. Four States--California with the highest enrollment, 78,884; Florida with 74,175; South Carolina with 67,476; and Texas with 48,419--accounted for 33 percent of the participants. These same States had the four highest numbers of participants the previous year. Each of these States except Texas shows an increase in participants over the previous year.

The largest enrollment (292,034) was reported for the 16-24 age group, with the 225,204 reported for the 25-34 age group the second largest. Together, these two age groups made up 63 percent of the 1973 participants. Enrollments diminished progressively among the older groups, with the smallest enrollment (24,149) recorded for those 65 and older. Table 2 was generated from a three-way matrix on the report form. Consequently, national totals shown here consist of only those participants whose age, race and sex was reported.

Females, for the second time in 5 years, represented 57 percent of the total participants. New York, with 85 percent of its participants females, had the highest rate, while Massachusetts, with 45 percent, had the lowest (table 3).

The age ranges of the participants are shown by their sex and race or ethnic group (tables 4a thru 10b).

The instructional levels appearing in tables 11 and 12 have been redefined on the revised (1972) report form to conform with census data, which defines the beginning level as equivalent to grades 1-4, the intermediate level equivalent to grades 5-8, and the advanced level equivalent to grades 9-12. This is a major change particularly at the advanced level; the former equivalents were respectively grades 1-3, 4-6, and 7-8. New enrollees at the beginning and intermediate level increased while those at the advanced level decreased over the previous year.

Completions of the advanced level of instruction by those participants who attended that level increased by 20 percent over the previous year. Table 12, showing completions for each level of instruction, has column totals but no line totals. Although totals are shown, it was impossible to determine how many, if any, were duplicate counts.

More people separated from the program for unknown reasons (44,606) than for any one of the known reasons. Class time schedule, as the reason for separation, had the smallest number (7,061) among the known reasons listed in table 13. It should be noted that many States reported participants with multiple reasons for separation.

There were 215,147 participants reported in fiscal year 1973 as having upgraded their educational level by receiving an eighth-grade diploma, entering high school, passing the General Education Development test, graduating from high school, or enrolling in other education as a result of having been enrolled in an adult basic education program (table 14). Additional achievements of a more personal nature are shown in table 15.

In the following tables, "NA" indicates data not available.

There were 318,662 participants employed during fiscal year 1973, an increase of 22 percent over the previous year; 248,661 were unemployed, an increase of 56 percent; and the 97,523 receiving public assistance was an increase of 17 percent over the previous year (table 16).

The same percent (54) of participants attended classes in school buildings during fiscal year 1973 as the previous year. Elementary and junior high school buildings again were the most-used facilities. Learning center facilities were utilized by about 18 percent of the participants (table 17).

Although there were more participants in fiscal year 1973 than 1972, the number of classes held decreased in number. The 16,706 daytime classes (table 18) is a slight increase over the previous year while 37,832 evening classes (table 19) is a decrease over the previous year.

The number of participants attending urban programs (343,595) in fiscal year 1973, is an increase over the previous year; while the number attending rural programs (103,625) is a decrease (table 20).

Administrative and supervisory personnel at the State level totaling 386 people is a 60-percent increase over the previous year (table 21). The administrative and supervisory personnel at the local level totaling 3,512 people is less than a 1 percent decrease (table 22).

The number of local teachers and paraprofessionals reported for fiscal year 1973 is slightly less than the previous year (tables 23 and 25), while an increase is noted in the number of counselors (table 24).

State allocations for this program may be expended over a 2-year period; however, the expenditures shown are those reported by States, as of a given date, for fiscal year 1973 (table 26).

APPENDIX

Annual Report Form for
Adult Basic Education Programs

APPENDIX

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

PERIOD COVERED		FORM APPROVED O.M.B. NO. 51-R0684
FROM	TO	
STATE		DATE OF REPORT

ADULT EDUCATION ANNUAL PROGRAM REPORT

(Adult Education Act of 1966, Title III, P.L. 91-230, as amended)

INSTRUCTIONS

The principal purpose of the report is to allow States to make better use, for planning purposes, of information found in the five tables. The report has several other purposes at the Federal level. It serves the Office of Education by providing a standardized data-collection format for use by all States. The collected information is used to publish reports and respond to inquiries. More importantly, the report is used as a program tool for the Office of Education to assess the impact of adult education at the State, Regional and National levels. Such information provides a basis for changes in National policy, redirection of resources, and provision of various forms of assistance to States.

The first table is concerned with various characteristics of the population served, the second table with instructional levels and participant separations, the third table with number of participants by location of classes and number of day and evening classes by location. The fourth table is related to staffing patterns of paid State and local personnel and the amount of program-related training in which they are participating. The last table is concerned with impact of the adult education program.

The new alignments of data in the table permit the State Administrator to look at the overall performance of the State program. For this report to be of maximum value to both State and Federal program officials it is better that figures which are considered unreliable not be included in the report. Soundness of data is preferred over total completion of the report. *(Where no reliable figures are available, the appropriate spaces in the reporting tables should be lined through.)*

To make the best possible use of this information system the State Administrator should insist upon timely and accurate reporting of data from local jurisdictions. For Federal purposes, a signed original and four copies of the report should reach the HEW Regional Office no later than September 1.

TABLE 1. NUMBER OF PARTICIPANTS BY RACE, SELECTED ETHNIC GROUPS, AGE AND SEX

AGE	AMERICAN INDIAN		NEGRO/ BLACK		ORIENTAL		SPANISH-SURNAMED						OTHER INDIVIDUALS NOT INCLUDED IN COLS. *(b) thru (m)*		TOTAL
							PUERTO RICAN		MEXICAN AMERICAN		OTHER				
(a)	Male *(b)*	Female *(c)*	Male *(d)*	Female *(e)*	Male *(f)*	Female *(g)*	Male *(h)*	Female *(i)*	Male *(j)*	Female *(k)*	Male *(l)*	Female *(m)*	Male *(n)*	Female *(o)*	*(p)*
1. 16-24															
2. 25-34															
3. 35-44															
4. 44-54															
5. 55-64															
6. 65 plus															
7. TOTAL															

TABLE 2. PARTICIPANT PROGRESS AND SEPARATION DATA BY INSTRUCTIONAL LEVEL

PART A. NUMBER OF PARTICIPANTS

INSTRUCTIONAL LEVEL *(a)*	NUMBER STARTED AT EACH LEVEL *(b)*	NUMBER STARTED AT EACH LEVEL AND COMPLETED THAT LEVEL *(c)*	NUMBER STARTED AT A LOWER LEVEL AND COMPLETED A HIGHER LEVEL *(d)*	NUMBER SEPARATED FROM EACH LEVEL *(e)*
1. Beginning				
2. Intermediate				
3. Advanced				
4. TOTAL				

PART B. REASONS FOR SEPARATION *(Give the number of separations)*

1. To take a job *(Unemployed when entered program)*		8. Because of child care problems	
2. To take a better job *(Employed when entered program)*		9. Because of family problems	
3. To enter another training program		10. Because of time class/program is scheduled	
4. Met personal objective		11. Because of class/program termination	
5. For lack of interest		12. For other known reasons	
6. Because of health problems		13. For unknown reasons	
7. Because of transportation problems		14. TOTAL	

OE FORM 3058, 3/72 REPLACES OE FORM 3058, 9/68, WHICH IS OBSOLETE

TABLE 3. NUMBER OF PARTICIPANTS AND NUMBER OF DAYTIME AND EVENING CLASSES BY TYPE OF LOCATION

LOCATION OF CLASSES (a)	NUMBER OF PARTICIPANTS (b)	NUMBER OF DAYTIME CLASSES (c)	NUMBER OF EVENING CLASSES (d)
SCHOOL BUILDING: 1. a. Elementary/Junior			
b. Secondary			
c. College/Junior College/ Technical Institute			
2. Learning Center			
3. Correctional Institution			
4. Hospital			
5. Work Site			
6. Other Locations			
7. TOTAL			

TABLE 4. NUMBER OF PAID PERSONNEL, BY LOCATION AND TYPE OF EMPLOYMENT, AND BY AMOUNT OF TRAINING FOR ADULT EDUCATION POSITION

(NOTE: Specify the various formulas or methods used in each of the categories. Use a separate sheet of paper and attach.)

ORGANIZATIONAL PLACEMENT AND TYPE OF JOB PERFORMED (a)	PAID ADULT EDUCATION PERSONNEL					
	TOTAL NUMBER OF PERSONNEL (b)	EQUIVALENT NUMBER OF FULL-TIME PERSONNEL (c)	AMOUNT OF STATE AND/OR LOCAL TRAINING (In clock hours)			
			NUMBER TAKING 1-16 HOURS (d)	NUMBER TAKING 17-40 HOURS (e)	NUMBER TAKING 41 OR MORE HRS. (f)	NUMBER TAKING NO HOURS (g)
1. State Administrative and Supervisory Personnel						
2. Local Administrative and Supervisory Personnel						
3. Local Teachers						
4. Local Counselors						
5. Local Paraprofessionals						
6. TOTAL						

TABLE 5. STATE ADULT EDUCATION PROGRAM IMPACT DATA

PERSONS WHO-	NUMBER OF PERSONS	PERSONS WHO-	NUMBER OF PERSONS
1. Are enrolled in an urban ABE Program *(Community population over 100,000)*		11. Enrolled in other education/training program *(Employee development, college, business or technical institute, correspondence, other Federal, State or local manpower program as a result of experience in program)*	
2. Are enrolled in a rural ABE Program *(Community population under 2,500)*			
3. Are enrolled in program who are employed			
4. Are enrolled in program who are unemployed		12. Were removed from public assistance rolls	
5. Are enrolled in program who are receiving public assistance		13. Obtained jobs as a result of experience gained in program	
6. Are on waiting lists to enter program		14. Changed to or were upgraded to a better job as a result of experience in program	
7. Achieved eighth grade diploma through program		15. Registered to vote for the first time	
8. Enrolled in high school diploma program after completing ABE Program		16. Received U.S. citizenship	
9. Passed general education development test		17. Received driver's license	
10. Graduated from high school after starting in ABE Program		18. Received training in completing income tax forms	

NAME OF STATE DIRECTOR *(Type)*

SIGNATURE OF STATE DIRECTOR

INSTRUCTIONS FOR COMPLETING
ADULT EDUCATION ANNUAL PROGRAM REPORT

(Adult Education Act of 1966, Title III, P.L. 91-230, as amended)

(OE FORM 3058, 2/72)

TABLE 1. Reports the population that is being served by adult education classes in the State with Federal, State or local funds under P.L. 91-230. It should include participants from other Federal programs such as Manpower and WIN for whom any direct services are being provided at clearly additional cost to the program *(e.g., when an influx of 40 WIN participants would necessitate operating 2 or 3 extra classes)*. Every participant that completed 12 or more hours of instruction during the fiscal year July 1 through June 30 should be included in this table.

A participant's age is to be reported as age at time of first class attended during the fiscal year.

The total number of adult education participants reported in Table 1, Line 7, of Total Column (p) should agree exactly with the total figure reported in Table 2, Part A, Line 4, Column (b).

TABLE 2. Combines important data on starting levels, completions, and separations. As with Table 1, only participants who attended 12 or more hours of instruction during the fiscal year should be reported. The total figure reported in Table 2, Part A, Line 4, Column (b) should agree exactly with the total reported in Table 1, Line 7, of Total Column (p).

Students who left the program during the fiscal year because they completed the intermediate or advanced levels should not be counted as separations, but as completions. Count separations one time only. For example, a female who separates because she has a baby-sitting problem may be said to have a family problem. However, it is more accurate and useful to report her separation once under "child care problems."

Reasons for separations have been delineated to show "positive" type reasons indicating certain program accomplishments, as well as problem-related reasons which may be amenable to State and/or Federal influence. For example, if health problems show up significantly in a given State as a reason for separations, the State administrator might encourage curriculum on personal health care, hygiene, and nutrition. The total figure reported in Table 2, Part A, Line 4, Column (e) should agree exactly with the total reported in Part B, Item 14.

Until such time as special definitions have been developed for measuring adult performance levels, "Beginning" level *(to conform with census data)* is equivalent to Grade 1-4. "Intermediate" is equivalent to Grades 5-8. "Advanced" is equivalent to Grades 9-12.

TABLE 3. Shows where participants attended classes and the number of day and evening classes by type of classroom location. As with Table 1, and Column (b) of Table 2, the State should report on every participant that completed 12 or more hours of instruction during the fiscal year.

"School Building" can be either public or private. For purposes of this report, junior high buildings should be classified as elementary.

"Learning centers," for purposes of the adult education program and this report, are adult instructional settings featuring (1) extensive use of programmed instruction, (2) flexible participant scheduling and attendance, (3) being open for extended periods of time and on a daily basis, e.g., 9:00 a.m. to 5:00 p.m. In cases where learning centers are found in any of the other types of locations listed, participants should be counted as attending learning centers not the other types.

"Correctional Institutions" can be Federal, State or local and include youth offenders as well as adults. Inmates are the only ones to be included in this category.

"Hospitals" can be Federal, State or local; mental institutions are included. Hospital in-patients and out-patients are the only ones to be included in this category.

"Work sites" can be public or private, as long as they are operating places of employment for the participants. If hospital or correctional employees are trained at their respective job locations, they would be counted under the "work site" category.

"All other locations" would include those that do not fit into one of the above categories. Church and storefront locations are among those that would generally fall into this category.

TABLE 4. Requires data on numbers of personnel and their full-time equivalence for five different personnel categories. It also provides for indication of the amount of State and/or local pre-service or in-service adult education program-related training received by paid personnel during the fiscal year.

In Column (b) count **one time only** each employee being paid out of Federal, State or local adult education funds. Each employee should be placed in the personnel category where he does most of his work. "Administrative and Supervisory personnel" includes teacher trainers. "Paraprofessionals" includes teacher/classroom aides.

"Equivalent Number of Full-time Personnel," Column (c), should be stated according to a formula or method used in determining full-time employment in each of the different job categories.

"State or Local Training" is not to include any "309(b) and (c)" funded training. It should include other training that is clearly related to the program effort under the personnel categories listed above. A "clock hour" refers to a period of instruction of at least 50 minutes in length.

TABLE 5. Provides for various impact information concerning the State adult education program. Supply accurate data if it is available on a Statewide basis for any of the listed items.
